County of Ulster

A Local Law Repealing Local Law Number 2 Of 2013, And Establishing The Ulster County School-Based Mental Health And Safety Act Of 2021

BE IT ENACTED, by the Legislature of the County of Ulster, as follows:

SECTION 1. LEGISLATIVE INTENT AND FINDINGS.

Local Law Number 2 of 2013 established the Ulster County School-Based Mental Health and Safety Act of 2013. Regrettably, although duly adopted by the Legislature and signed by the County Executive, Local Law No. 2 of 2013 was never enacted or enforced. The Ulster County Legislature finds that the conditions motivating the enactment of the School-Based Mental Health and Safety Act of 2013 still exist and have worsened creating the need for immediate action.

The Ulster County Legislature further finds that a lack of adequate mental health services significantly affects school attendance and limits academic success for students suffering from mental health issues. It has been demonstrated that access to school-based mental health treatment services improves school attendance and academic performance, and is especially effective in rural areas, like Ulster County, where families are often unable to travel great distances to reach mental health professionals.

It is imperative that students receive greater access to mental health services, which will both increase school attendance and academic performance, and also alleviate the pressure on families in Ulster County struggling with their child's mental health needs, coupled with a lack of access to adequate mental health services. The stigmatization of individuals dealing with mental health issues combined with the economic pressures on schools has reduced access to mental health services in Ulster County. Funding cuts and further reductions to Ulster County-based mental health programs have only exacerbated this gap in services.

School districts in Ulster County depend on the Ulster Board of Educational Cooperative Services (BOCES) for a variety of programs and services to meet their educational and financial goals. The BOCES model provides accountability, municipal sharing, efficiency and equity. As such, school districts may authorize Ulster BOCES to centralize mental health professionals and deploy staff to meet the individual needs of each school district

The S.R.O.'s primary duty is to protect the school's safe environment and to maintain an atmosphere where students, teachers and staff feel safe enough to learn.

"Inter-municipal Shared Services Agreement (ISSA)" a shared service agreement is the joint provision, performance, or delivery of a service, facility, activity, project or undertaking by two or more municipalities which each may lawfully undertake separately.
