

Amending Resolution No. 352 Of December 14, 2005 – Standardization Of Certain Equipment – Department Of Public Works (Highways And Bridges)

The Public Works and Capital Projects Committee (Chairman Loughran and Legislators Decker, Hochberg, Sheeley, Fabiano, Felicello and Roberts) offers the following:

WHEREAS, pursuant to Resolution No. 352 of December 14, 2005, the then Ulster County Commissioner of Highways and Bridges requested and the Ulster County Legislature adopted, certain changes to the standardization of certain highway equipment, and

WHEREAS, the Commissioner of Public Works now requests an amendment to Resolution No. 352 of December 14, 2005, entitled “Standardization of Certain Equipment – Department of Highways and Bridges”, and

WHEREAS, “Sterling”, one of the previous equipment manufacturers, is no longer in business, and

WHEREAS, extensive research for equivalent trucks has proven “International” to be the most comparable manufacturer to replace certain equipment previously provided by “Sterling”, and

WHEREAS, International brand trucks meet the new government emission standards, and

WHEREAS, the standardization of International Tandems, Single Axles, and Tri-Axles will save money because (1) the assemblies of the International trucks are interchangeable, allowing quicker and more efficient repair and/or replacement in case of equipment breakdown, and (2) fewer parts of different types need to be stocked, thereby reducing inventory cost, and

WHEREAS, there are no further changes in standardization with relation to numbers 3-7 and number 9 as set forth below, and

WHEREAS, the Public Works and Capital Projects Committee has met and reviewed said request with a majority of the members voting approval, now therefore, be it

RESOLVED, that the Commissioner of Public Works requests the standardization of certain equipment as follows:
